

# PhD student network workshop

Bergslagen 15-17 May 2024

Balancing cultural heritage, resource extraction and environmental values in historic mining areas

First circular

SWEDISH  
MINING  
INNOVATION

**Description:** This workshop focuses on the complexity of the historic Bergslagen mining district in southern Sweden, where collision points between mineral exploration, mining, tourism, industrial heritage, environmental protection, urbanization, and mine reclamation commonly exist. We will visit and learn about ongoing projects in different parts of the value chain and interact with stakeholders from industry, academia and municipalities.

## Preliminary itinerary (starting point: Västerås)

### 15 May – The Bergslagen legacy

- Tour of [Northvolt/Revolt LIBS RnD facility](#) in Västerås.
- Visit to Sala silvermine, presentations by [Alicanto Minerals](#), [Sala municipality](#), [Sala silvergruva AB](#).

### 16 May – Deep, modern mining at Garpenberg

- Visit to [Boliden's](#) Garpenberg mine and processing plant.
- Presentations by Boliden and [Hedemora municipality](#)

### 17 May – Rejuvenating old mining districts

- Visit to [Nordic Iron Ore](#) in Ludvika
- Presentations by Nordic iron ore, [Ludvika municipality](#) etc,

More information and additional speakers will be announced.
